

Welcome to Your Star Community

Galactic to Gaia Sacred Ground Collective Community

Earth mission is about identifying all energies, forms, waves, broadcastings, etc. coming for those whose chosen agenda is to control, use, manipulate others in any ways.

It includes identifying the methods by which such agendas are implemented, i.e. violence, abuse, war, discounting.

The Earth mission calls for the total extinction of all vibrations of domination and the dismantling of thoughts, stories, history, cultures, systems, etc. that have emerged from those agendas.

What is the impact that one might expect to feel or experience during such dismantling? That is the question I was presented with before class. Becoming aware that a great percentage of the chaos, anxiety, imbalance, and even death is an indication the goal of Earth mission is being fulfilled.
