

Astrology, the Angels and YOU!

Online Class

2 1/2 hours class

Sharon Riegie Maynard

Introduction

The energy of the planets are very powerful in our lives. Just look at what happens with the moon does her dance across our skies! The waters rise and fall, and our emotions rise and fall.

We talk a lot about the various patterns, ideas, experiences, create energy configurations. These configurations/imprints are like seeds in our life-force field and manifest into our life. Learning to be responsible for weeding your own field, planting what is missing, tending what brings joy is common in our experience.

The powerful energies of the planets are also at play. We are always within the vibrations patterns they create. Those patterns interact with each individual's live field in unique ways. The planet Pluto will swirl within the sign of Capricorn and everyone on the planet is impacted. And, how that energy of Pluto calling for powerful disciplined living plays out differently for each on the planet. It is like the planet enrolls you into a course, astrology tells you the field of possibility. You can walk into the class understanding the goal, ready to learn, or feel battered by forces you do not see.

When your own personal seeds are triggered, you use your tools and processes, get the message, transform the seed, plant new and the energy smooths.

With the planetary impact, the energy does not smooth until the planet moves on which may be months or even years. It is worth knowing what those great Teachers are calling you into!

Composition of a Natal (Birth) Chart

Composition of a Transit Chart

This area is for planets of your natal chart

This area is for the transiting planets

Aspects

Squares and Oppositions

Opportunities in the form of challenges

Square: Inharmonious energies which calls for significant effort to integrate. Fear will cause friction. From friction to integration
Squares ask the question, “*Do I have the strength, vigor or courage to find a way to integrate this and that?*”

This would be the sentence structure: *I have the strengthen, courage, tenacity to weave (this) into (that).*

Opposition: Harmonious element both active and over stimulated. Lack of objectivity will cause a feeling of being caught in the middle, this or that or this or that... From polarization to valuing this AND that.
Oppositions ask the question, “*What can I learn from this that will help me be a greater expression of that within myself?*”

This would be the sentence structure: *I have learned (this) that will help as I do (that).*

The Outer Planets Set the Backdrop

the Landscape the faster moving planets will activate

Pluto: Cycle of Destiny

Calling you to a larger communal, historical framework of Destiny. Make your mark versus is this all there is? If not understood, you might feel an emptiness, sickness of spirit and futility of action. That would leave you imprisoned in a narrow view, power struggles, and us against them thinking.

Such energy must be acknowledged and harnessed, given a mission, a leap beyond self to an altruistic effort, because if 'feels right' is enough.

Neptune: Cycle of Spirituality

Call to go deep and explore its complexity through inner guidance and expanding consciousness.

Learn that spiritual is a REAL work, a world of mystery you enter by learning to turn the key.

I am not this body, or personality. I am a consciousness.

Uranus: Cycle of Personality

Call to rebel from social constraints, discover personal genius and freedom. Do something for me of me, individual expression,

Genius or determined idiocy

Steps in Using this Workbook

1. Print out your ASTROLOGY CHART.
2. On the printed CHART, circle the planets in the OUTER(transit) region which are in the signs: Pluto, Uranus and Neptune
3. From the glossaries for the planet and sign, write a word for the planet and a word for the sign.
4. Next, write a word for the house in which those circled planets reside.
5. Highlight OUTER (transit) planets that have aspects: opposition, square.
6. If these planets have no aspect, move to step #8.
7. For the transiting aspects, identify the INNER (birth) planets that the aspect line touches and circle those planets. Repeat step #3 and #4 for those planets
8. Find 2 or 3 challenging aspects with the other planets. Circle the planets and signs and repeat the above steps
9. You now have several groups with a planet, sign, and house and words to define those items.
10. In the lined section, or in your journey, list each group, i.e. Pluto, Capricorn, 3rd would be listed as “transformation, socially acceptable structures, media/ communication”
11. Using the group definitions, we will create Statements based on the questions the transits are presenting.

You will have two types of statements.

- One will be Pluto, Uranus, and Neptune and either aspect sentences or expansion sentences
- Two will be other planets which have aspects opportunities.

Creating Sentences to Participate With Aspects

Transiting Planets Activation with no Aspect Sentence Structure:

I am expanding (use the words for the planet and sign) within this (house) area of my life.

Opposition Sentence Structure:

I have learned (this: use the words of one group) that will help me as I do (that: use the words of the other group).

Square Sentence Structure:

I have the strength, vigor or courage to find a way to integrate this and that.

Using the TAG Processes with the Planetary energy

1. Write Reality Statements for the energy from your natal chart.
2. Write Reality Statements for the energy from your transiting chart.
3. Write Reality Statements for any aspects.
4. Do the Reality Shift and Brain Balance with each Statement.
5. Repeat as often as you intuit.

Review of the TAG Processes

Reality Shift:

This is the tool you can use to redesign and expand your life. Unlike an affirmation, the Reality Shift works from the higher realms and is directed by your soul design.

Here are the steps that take a Reality Statement from the level of affirmation work into the 64 dimensions of our entire Galactic and Gaia bio-field.

Step 1. Writing the Reality Statement: Describe your ideal world as if you are experiencing it now. This is similar to an affirmation but need not be specific. Write a sentence using personal and present tense, i.e., "I now am...." You are choosing your next experience and in the process old patterns can be transformed.

Step 2. Say to your Causal Spiritual team, "Please align every aspect of my consciousness and the consciousness and all to whom I am loving connected to this chosen reality and experience." pause

Step 3. Next, ask your Causal, PTO, and TAG teams, to "DEEP SIX every energy imprint that would sabotage or prevent this reality and experience, whether the beginning was, Galactic, Group, Genetic, Personal, Inherited, Contractual, Outsider or Other created." pause

Step 4. I call to the my Spiritual teams of all in this field. "I and all the Galactic Council Collective, declare all contracts made to manifest Outsider's energy for its identification and

removal is complete. The Shift to Outsider extinction in our Living Bio-Field is complete."
pause

Step 5. Ask your Causal Design team, "Create the programs for the Highest Expression of this Reality and download the codes into the 1st Dimension of my Earth fields, anchor them into the 5th Dimension, and Activate their resonance into the entire 64 dimensional energy fields our Galactic Families." pause

Then you can know That It Is So!

Step 6. Feeling

Now that you, as the commander for your life, have chosen a change, a new possibility, it is up to you to feed it. You can begin by taking just 5 minutes periodically, but especially as you drift into sleep, to imagine yourself in this Reality and FEEL all aspects of it. How does it feel in your body? What colors and shapes are there? Who is in that Reality with you?

Step 7. Remain aware of any contrary thoughts, feelings, or actions and use your tools beginning with DEEP SIX to declare that these imprints for such emerging forms be cleared and healed.

Brain Balance:

To integrate the new Realities into your brain and neurological system:

- A. Read the Reality Statement.
- B. Cross Crawl....March in place crossing the meridian of your body, left hand to right knee and right hand to left knee. As you Cross Crawl, keep your face forward and move your eyes as if they are paintbrushes that you are using to paint the wall in front of you.
 - A. Puppet. March in place lifting right hand and right leg at the same time and then left hand and left leg at the same time. As you do the puppet, move your eyes like paintbrushes as in step B.
- D. Visualize the Reality Statement as if you were in the experience.
- E. Hold both hands out to the side at shoulder height. Each hand symbolizes one hemisphere of your brain. Gently, lift your hands above your head and interlace fingers. Then bring the linked hands down to through the chakras and draw energy into your hands from the earth.

Cross crawl to anchor the reality into the body.
