

Deep Roots

Building New Cultures Through Collaboration

Apprentices for DEEP Roots Project

Preparation:

You will be working with two individuals for three months. Consider the type of recording system you can create to keep your information from the session and your anchoring processes to them in an orderly fashion.

Perhaps a separate notebook for this work.

You will want to have a place for the handouts such as a three-ring binder, clear plastic sleeves for the evaluation and identification charts. If you find that keeping them online works better for you, create a folder on your computer that is easily found.

Since you know the time and date of our classes, and that you will be holding a session with each of your participants, set aside those times and mark them on your calendar. Each session could be between 30 to 40 minutes a week. Some of that will be done during class.

How about a sacred alter for the Deep Roots, your participants, and for energizing the Sacred Space of Sovereignty and Divine Good collectives?

Session One:

Assuring Healing team and Your connection:

1. Connect to participant's Higher Self and Causal team. Ask, "Is there an extensive healing team in her/his field?" If not, ask that one be brought together with the capacity to effect the changes that the TAG/PTO/Galactic teams can bring.
2. Ask for the name of the one who will be your 'touchpoint'.

Basic Information:

1. Divine Family and Assigned Vibration: use the TAG color chart with distinctions
2. Is there an exit/death date in birth plan that may need to be changed?

Yes - to elimination of exit date: Remove all plans for exit plan -
