

Galactic to Gaia Odyssey Taking Back Your Life as Star Being

This course will restore long-held secrets in order for you to build a Divine Life on the truths of your Divine/Star Family's Nature, Mission, and Agendas.

Moving onto the Galactic Landscape

Intentions

We hold space for humanity to wake up, acknowledge and heal the wounds they carry in order to build lives that bring benefit and good. We understand our hidden history as Galactic Star Families. Being deeply rooted in these truths, enables us to maintain sovereignty and restore ourselves to our Soul's true nature.

We honor each one's experience, power, and authority. We encourage you to create secure connections to your spiritual family, "go within", be in stillness, and find your unique contribution.

Agreements

- We gather in the Sacred Space of Safety and Sovereignty
- One person speaks at a time and each is free to pass
- We recognize that each is a leader in his/her life

- We respectfully listen to each other's inner guidance
- We listen deeply from our heart
- We share concisely from our personal life experiences
- We listen with discernment rather than judgment
- We are self-responsible and apply Good Mind in monitoring our own energy
- We are to learn, apply, ask questions, and share.
- Our spiritual experiences and visions are held as sacred and valuable
- What is spoken in the circle, stays in the circle

Introduction

Like the giant ocean liner, the Titanic, Earth seemed to be sailing with great ease. Over the years, the few voices calling warnings were assured, "All is well!" "Just love."

"No problem", was the general consensus, "just move your chair" to a different spot on the ship.

And so, the model for problem solving was to rearrange the furniture. Shift your view. No problem now. Sit back, eat, chat, and listen to great, uplifting music.

More and more it is evident that our lives, families, communities, and world are in trouble. More are acknowledging, "All is NOT WELL."

We have been given so many false concepts leaving us in a similar consciousness as those on the Titanic. Many voices are explaining why and using the old stories to suggest solution. Like moving your chair to another spot on the ship.

What has been kept from Humanity is the Overall Picture from our Star Families... What was our Original purpose? Why are we on Earth? What had we hoped to accomplish?

The result is that we have been living within systems designed to dominate and control our Soul families. Because most of the puzzle pieces are missing, they shake and are easily tossed about whenever the table is shaken.

In our world today, there is a dramatic play being enacted upon the world stage. We have been trying to create, build, and live our contribution on a landscape created to destroy such creations, domination cultures.

Unfortunately, most of us have been programmed to forget the script, our lines, our commitment.

AND THAT IS WHERE THE PROBLEM LIES! It is Critical that those who are ready, re-member our Galactic Plans and Families.

When you know our Galactic and Star History, you have a new landscape, new playing field supports Star family's contributions.

Some Concepts That Are Not True

- Humanity is the cancer on this planet
- All there is is Love
- This is a planet for learning
- We need the dark to grow
- When we have learned "our" lessons, we will not come back to an earth experience
- The most important quality for earth is to obey
- Men's nature is assertive and leading
- Female's nature is receptive and nurturing
- God will put it 'right'.

*We have been trying to live as a divine star being in physical body within the cultures created to entrap us.
Trying to solve problems with the wrong information.*

First Steps

Understanding your Galactic Star family's agenda and nature as an immense collective is the beginning

The values of my Star family and Spiritual teachers are.....

The first point of power is to claim secured channels to your Star Family in the unseen world

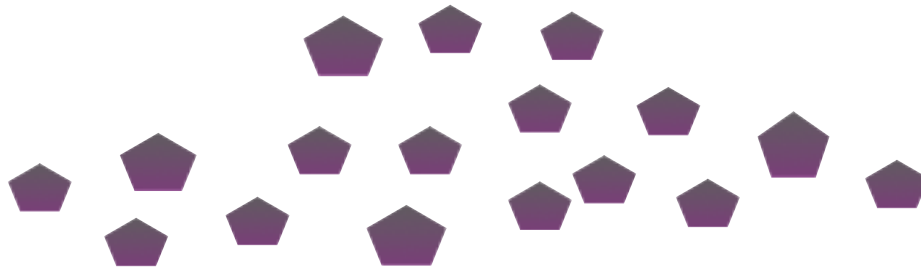

What tools or processes do you have that you can use to build relationships with this Family?

There is intelligence in Your Star collective that will serve you in building from a New Consciousness.

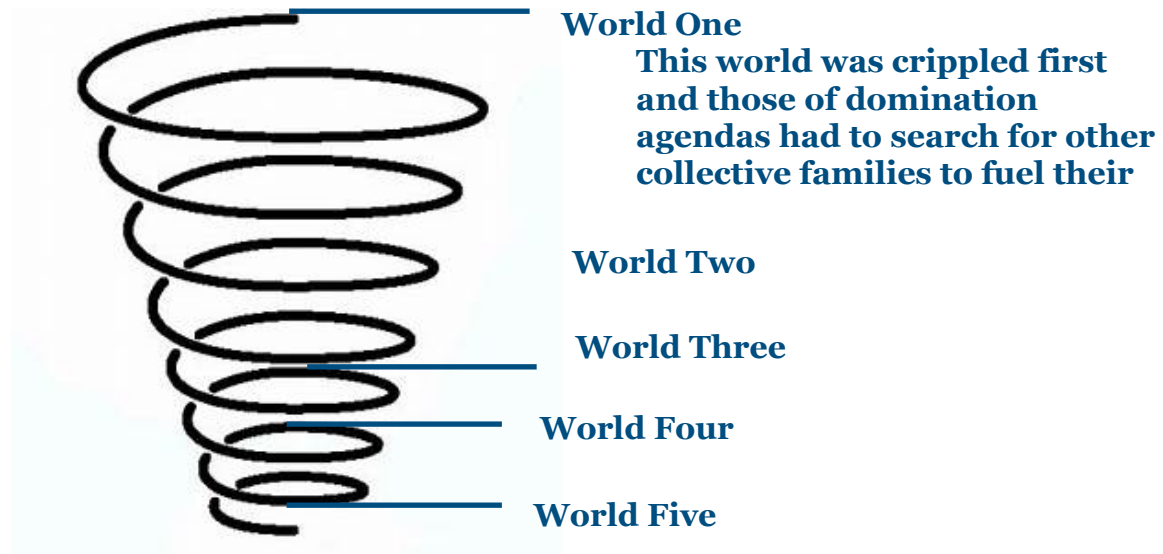

Knowing Good, you can identify Evil.....

What went wrong?

Deception and its impact

These **17 collective groups** chose various agendas to use other's energy and creations, i.e. lazy, voyeurism, domination, control, abuse, violence, etc.

What Happened in the 3rd World of DF group #1 Changed Everything

Energy is the beginning of all that manifests. The cause of what is manifesting in your life, your community, your world has its seed in the Galactic world. The ripples, memories, patterns, entropy that has come from that beginning is stored uniquely. However, as long as the seed exists, the manifesting energies will not end.

By the Third world of the Divine family of Curiosity, they had divided into 12 groups. Their agenda to have a less limited agenda than other family groups and their size, allowed them to divide. The concept of direct and vicarious experiencing was possible and critical to this choice.

I use the color spectrum to explain this.

It was in this Third world from home that the outsiders began broadcasting ideas into their life field. These ideas were not recognized as an outsider voice.

One was almost a taunt... "Well, you think you are doing so well! But you have the Greater Field of Home holding you! What would happen if you "let go" of that support and were on your own? Maybe not so great then."

So, the group of Curiosity considered how they could give this letting go a try.

The plan was really very good until in the middle of the plan, the outsiders broadcast into the 13th Group. The whisper was, "Wow, those times of disconnect are really impacting each group. You have never done this before. Do you realize that you are not enough? We have been on this journey for quite some time and would really love to help you in your assignment."

And so, then the first of the twelve groups reached to have the support of the 13th, the presence of the outsiders escalated the doubt, caused divisiveness, and the swing between balance and disconnect was not corrected. The duality of wholeness and imbalance, love and fear, was not a constant within the Divine Family of Curiosity.

As the other groups were impacted by the outsiders, the seven Divine Family groups banded together in the hopes of helping each other become free.

Impact on Earth: not all is love, three streams of energy, why only love does not work
