I Am...

The Rest of the Story . . .

All there is, is Love….

Love conquers All….

Love is stronger than Hate…

01 Until you know the Rest of the Story….

What has been hidden….

The breath of Life within a consciousness some call a 'soul' did not begin on earth. The breath, the energy stream, was always from an awake consciousness within a space many call Home or Source.

Not, heaven. Heaven is an earthly word.

Home/Source is a energy life field of unity, balance, harmony, all intelligence, all qualities that sustain life in Wholeness, Good for all. Love is only one aspect of those qualities. Most souls in physical body suits in the experience of 'humanity' have extended from 'Home'. Each conscious soul could align to one aspect of Home, for example, Joy, into a Divine sub-family/unit and have an adventure into Laniakea beyond the boundaries of Home/Source.

Unfortunately, in various spaces within the great space of Laniakea, there are some sub-family units who chose to create codes that caused the harmonics of 'power-over' to be available to them. Their agendas in those worlds were various forms of Domination and Using other's energy; creations, and resources. Parasitic by nature. And that was their right.

Love, as a designation for all agendas aligned to any quality of Home/ Source, does not have the right to take away the agendas of Domination created by others. It is not about which is 'stronger'.

Love cannot change Hate, Fear, Domination, Abuse, Torture, etc. into forms of Love and Light because Love did not chose those agendas nor create the codes that cause them to manifest. Love can diminish the energy of 'fear', 'hate', 'abuse' , etc. that comes from situations caused by those who are aligned to agendas of Domination. However, it cannot eliminate the 'cause', the root of these patterns.

Domination types intentionally generate and cause imbalance within humanity in order to keep souls of Light trapped, weakened, powerless as the genius, creations, resources, and magnificence is syphoned away into the life fields of Dominators.

That is why it is said, "Follow the money (resources)" and you will see the problems are created to bring benefit to a few.

02 Domination at any cost is a Reality....

Knowing the Rest of the Story opens for the Rest of the Story....

For most of the time that souls from the stars have lived on earth, they (we) have been tapped in cultures designed and implemented by those whose agendas from Laniakea was to Dominate, Control, Use, others. The Dominators, I call them Outsiders because their agendas, intentions, and activities are 'outside' the values and qualities of Home/Source. The actions and reactions that come from them are totally foreign to souls whose agendas are to experience the beauty, magnificent, and All Good of Source. Trying to understand the Outsiders from the viewpoint that all there is, is Love and Loving desires, has been the problem. Outsiders are entirely different 'families'. They that delight in violence, torture, pain of others, etc. just as family of Light take delight in the unity, uplifting, and beauty created.

So, what is the Rest of the Story?

Are we as star souls in physical body suits doomed to be forever locked into a system of 'slavery'?

Up until very recently, we were trapped. The best we could do lifetime after lifetime was survive. How? By turning down our Light. By staying silent. By normalizing our minimal lives. By acquiescing to the Dominators.

What is different?

Now, that is the Story worth knowing!

Plans had been laid within the energy systems of human body suits by the geniuses of our Divine families who designed them. Those plans had been crushed by the Outsiders, or so they thought.

In 2011, the original power centers were discovered. The Key for Outsider removal was tucked away in the Solar Plexus of the female body suit. The guardian of that Key is Sophia, ancient serpent of wisdom.

Souls in female bodies, activating their Sophia voice of authority, began decrees for the removal of Dominators to extinction, healing our ancestors to each position of power to design, set policy, and call in spiritual collectives for help.

By Conscious choice based on the Laws of Home, the word, LOVE, now has the power to free humanity!

03 The Rest of the Story..... You are Key!

As Sophias with the Voice of Authority within the female body, and Christ heart within the male body, we take back the word LOVE and designate its qualities and collective.
