

# Sleeping Women - Awake!

Day #7

May 15, 2022

Visions put in place with a Reality Statement and Reality Shift:

Our Divine Family's soul ambassadors are restored to the Heart and Soul of this mission. The strength and clarity and unity is absolute and founded in Divine Good of I AM.

- A. My main vision is for circles of twelve women. Loving, compassionate, creative, collaboratively, designing countries, communities, dates, principalities, homes, families, schools, healthcare systems, food manufacturing systems. I mean, this could be used everywhere. The bottom line for me was it just kind of came last minute. Military will no longer be necessary and can be converted into upgrading. The infrastructures, the roads, the transit systems and all of those underground tunnels can be used. Something like that.
- B. What I saw was these circles again, but it was think in terms of a village, a village of the number of people, which I think is around 300 or 400 that people can comfortably know and live with. So that's the basic foundation. But there's no real boundaries except mountains. There are no longer any

countries or States or anything like that. People are free, obviously, to come and go from their villages. But the idea is that you have this solid foundation that you've been raised in of people who know you and love you and care about you. So your heart is whole and you are whole as you go forth into the world. So then people are willing to understand and to be understood. Governance is not by consensus because of the backgrounds and the way that people and the changes that have been made in chakras and hearts and all that. The best idea for how to go forth and solve a situation or a problem is that people sit around and they throw out ideas until there's a hit of rightness and they all feel this hit of rightness. Yes, that's the way we should go. So it's consensus, but it's not the consensus of. I'll agree to that. If you give up this, it's the consensus of. Oh, yeah, of course. That's exactly what we should be doing. Yeah. And that's what I saw. Connection. People working together, actual, like, real heart connection. I care, we care. We all care. Lined up like we're supposed to be. That is the easy way to put it. So that's what I saw and what I'm anchoring in.

- C. That's very similar to my vision. But it's also different because I was journeying. I started with my team standing around me. They told me they are waiting for this moment for a long time. And they tell me that they always stay by me, stay by my side. So I do not have to worry or to hesitate with doing next steps. Important steps are to begin with listen to the inner voice. This is very welcome since we are in listening woman now the fifth grandmother. But of course it's my journey, but this counts for everyone. I mean it is a co creation but I journeyed it in my own spirit body with a listening woman. See, let's what the next steps will be is that I see women and myself offering circles, but these are changing. I also see myself offering lectures which I have never done yet. I see that circles are becoming more open to souls in male bodysuits and that we women are ready to let them be there without any competition, any male or female domination games or overpowering strategies. So there is unity. I see myself becoming someone who loves to offer the medicine I carry, which is my potential to shine and to share my gifts without giving myself away. I see women and men working and co creating new ways of living which actually are very old ways. But we are beginning to remember. I see. We go back to learning to trust each other again and from that foundation to start rebuilding a new society. However, there has to be changed still much and also to be learnt a lot. Thank you.
- D. Divine families, soul ambassadors, which is who we are, are restored to the heart and soul of Divine Mission. Our strength and clarity and unity is absolute, founded in the Divine Good of I AM. And all of Good and Benefit emerges from that.

So I'm going to use the reality shift to take it beyond just our word. I encourage each of you to take a minute to either think that hold your statement in mind. I will walk us through the steps of the Reality Shift to anchor it.

Take a moment.

Gather in the vision.

### **Reality Shift for our Visions:**

- We call in the extensive unlimited teams in the unseen world. Design teams as well as follow through teams. We ask that our consciousness field as well as the consciousness field of all to whom we are connected in love be moved into these realities.
- We call for the PTO and the Tag collective to deep heal deep six, remove outsider energies totally. Anything that would prevent, has prevented or is prevented. He'll transformed, removed. In this moment of time.
- We call for the causal design teams of all Galactic family soul members who are embodied. We call for their design team to design a program coded program for the highest expression of these statements for every soul on the planet and beyond.
- Once that program is designed that the codes are anchored into the first dimensional field, mine, yours and all who are connected in love to us.
- And that the program itself, like a software program, be inserted in the fifth dimensional which is the hard drive driving this lifetime for each of us.
- So from that place of Sophia design, declaration, guardianship for these realities, they have been cleansed, they have been programmed, downloaded and activated throughout the entire psyche of our Divine Families in every world, region, dimension, lifetime experience, space, time, space time, or plasma and more.

And so it is.

This has been delightful and wonderful and I've learned so much from all of you. Thank you so much.
