Travel Dialogue - Crystal Child process:

1. Who in ---- field knows about..... (name the pattern)?
2. Do you have a name you would like to be called?
3. Where are you held within ---- body?
4. What job do you have in ---- life?

I am bringing in Angels to hold space with you while I find the place where the most healing work can be done. Do you see them? Feel them?

I will be back.

1. Travel back to the count of three to the place of most intensity. Sense what your client is wearing and feeling
2. What is causing the feelings. leads a way of being...
3. Understand the situation and then freeze-frame the experience
4. Ask to go back farther to when the client was 'well'.
5. This is the place you will bring in Sophia, Gaia, Grace and educate the women of the community. Let them sense what is 'off', call in the PTO and remove the outsiders.
6. What is the story the women want for their children? Have that anchored, download the EV Blueprint for them.
7. Travel back to your client and anchor the Reality Statement of that story for them.
