The Golden Song Project

TAG Galactic System of Transformation, Healing, and Education

Our World Today

- From Ukraine to Uvalde to Supreme Court rulings in the USA to dangers happening in individual's lives, it would seem that humanity is spiraling off of a cliff, quickly.

What of Outsiders is Left?

When one considers our beginnings in the Galactic worlds, Earth mission, and the discovery of the assignment given to souls in female body suits, you can look at the current situations with new eyes.

- Only 6% of the total number of Outsiders are still present on the planet. Identifying them and calling in spiritual removal teams is the assignment of souls in female bodies with the help of the PTO and GCC teams.
- The restoration of the female authority held in the solar plexus power center and headed by Sophia was begun in 2001. First, the 7 Galactic worlds were cleared. An intense focus on the 8th world, Earth, was begun in 2012. A great deal has been accomplished.
- The Outsider's shielding to keep themselves hidden and masked has been eliminated with the removal of their presence. The residue of domination agenda forms and concepts are what is clearly visible without their shielding. That is good for those in female body suits as we don't have to guess.

- The greater portion of what is visible in the many forms of domination and parasitic actions is the energy damage, stored trauma, mental habits, etc. that such agendas caused, not from the presence of Outsiders.
- Imagine someone taking a piece of land, hiring an architect to design a complex according to the 'owner's intention, and that complex built to radiate that agenda. This complex stands, expands, deepens, over eons of time. The various 'owners' moving in and out leave traces of their actions behind, stored and hidden in the attic, basement, walls, towers, etc. Once the owners are totally evicted, all of their 'garbage', like hoarders, are left to be disposed of. A massive amount that is not for the PTO or GCC. And certainly not the role of our Divine Family's frequency of Love alone. We will call this the eon's of Outsider's Entropy. The waste energy from Light being twisted through agendas of parasitic domination.

Golden Song Project Intentions

- The purpose is to create and activate a massive, effective, instant clearing, cleaning, vacuum to remove all Outsider entropy while healing, correcting and anchoring wellness and filling all space with the vitality of Divine Good.
