Questions to Identify Pattern that was Triggered

The client: male or female?

The 'other' involved: male or female?

Was the other a family? a friend? an authority figure?

What did my client sense/feel/experience from the 'other'. (

What was my client's reaction?

What was my client left with?

You could ask, What did my client believe from this interaction?

Place the entire 'package', i.e. symptom, storage, trigger, causes' is in the hands of your healing team with TAG and Transform and DEEP Six
