Causes

An Integrated Protocol will collapse the time it takes to bring the new "outcome" into the various energy dimensions/bodies.

Emma MacKenzie has created a great model for keeping your "tools" in your awareness and at your fingertips. Beyond creating a protocol for a specific healing outcome, it is a excellent for designing a healthy lifestyle.

The place to begin is to list all of the tools that you know.
Then, who do you know with other tools? You will see from her model what others things to list.

You can look over the TAG tools at the website:
