

# Where Did We Begin?

---

Our Beginnings are Hidden in the Shadows

## Introduction

We Human Beings, have a great capacity for making up stories in which we live. They become family traditions, religious dogmas, social norms, honored truths, absolutes, and also stumbling blocks.

As Albert Einstein said, *"No problem can be solved from the same level of consciousness that created it."* Our stories dictate our consciousness and some are limiting, some are controlling, and some are expansive. Our stories, our consciousness, leads us to problems, may even hold the roots of those problems.

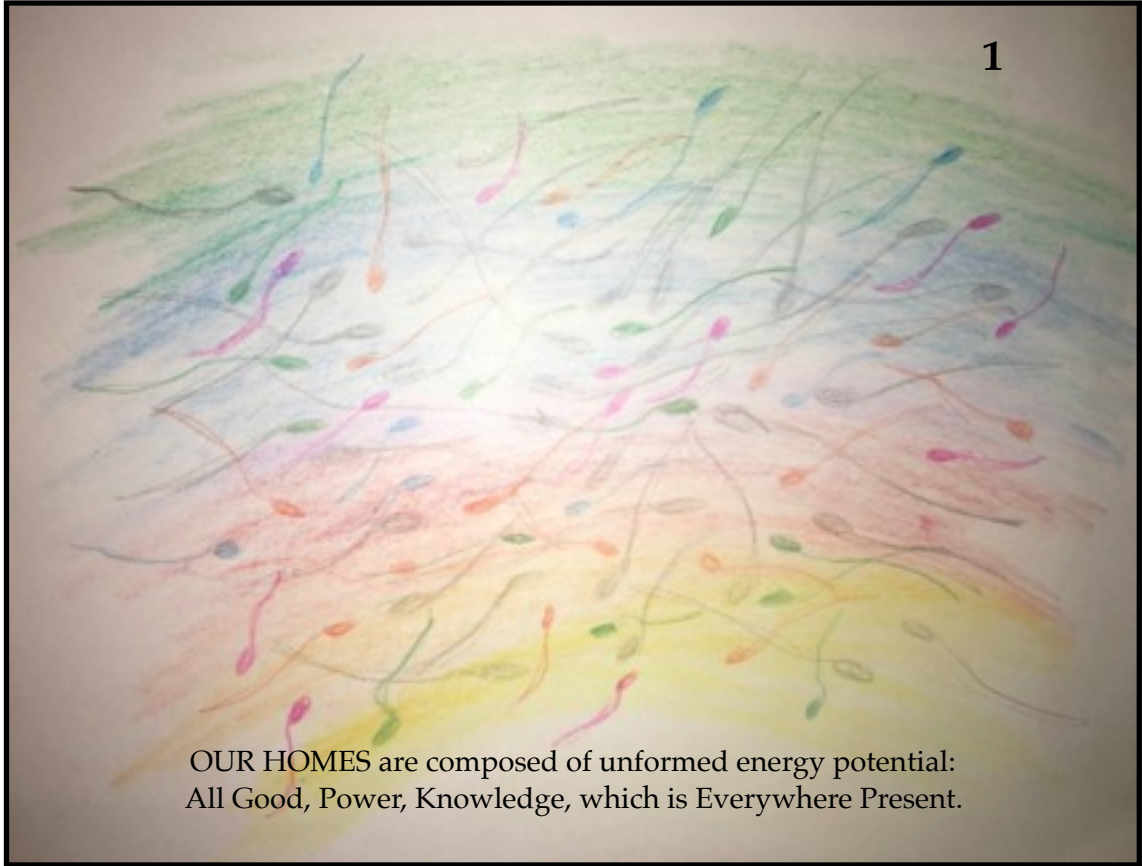

If there is one constant in life, it is that Humans are going to change. That change may come from an awareness of what is missing, from an "external" source such as accident, walls we keep hitting. However they com, change is a part of Life and solving"problems" is often the motivation.

There are truths that have been hidden from our view for so long that we do not include them in our stories. And yet, these truths may be the very concepts that will give us the new level of consciousness that will free us from limited stories, incorrect dogmas, and crippling boxes.

Try this story on... and Jump into a NEW Reality for our Children!

Gramms, tell me about  
our long ago...

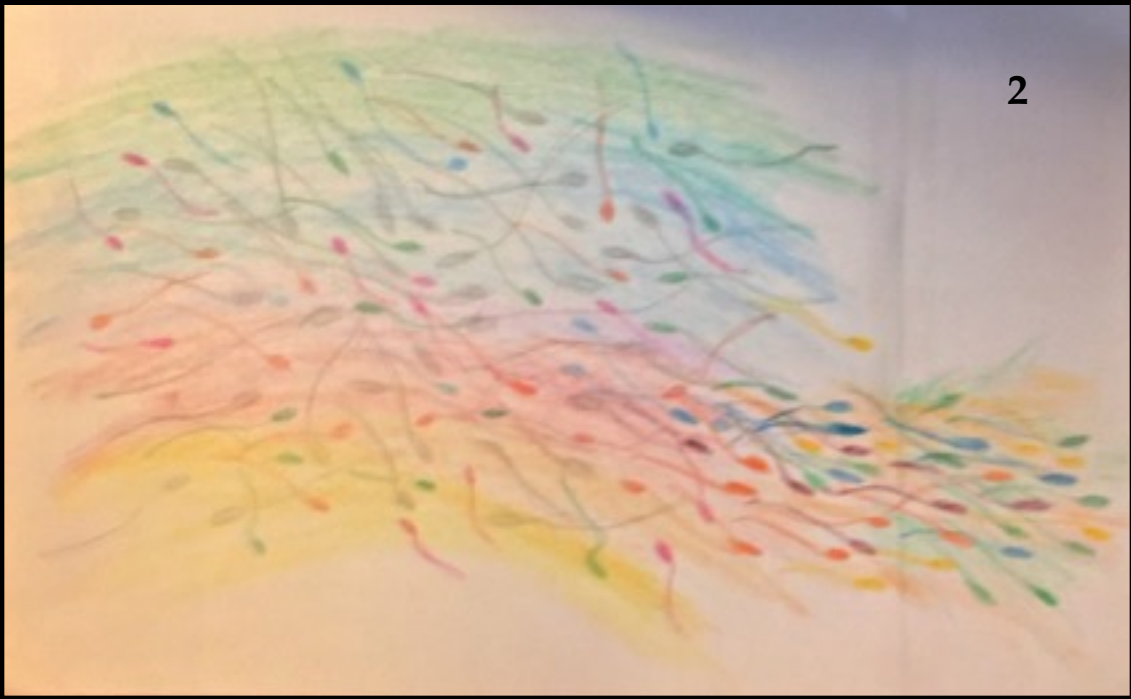

1

OUR HOMES are composed of unformed energy potential:  
All Good, Power, Knowledge, which is Everywhere Present.

Oh my heart!  
You know, before we had bodies that  
we see and touch, we were like the air  
you breathe... long ago times.

Many of us wanted to dance, sing, move and feel in bigger ways. So we moved into a new home space.

Is that like when Cousin Sally moved to New York?

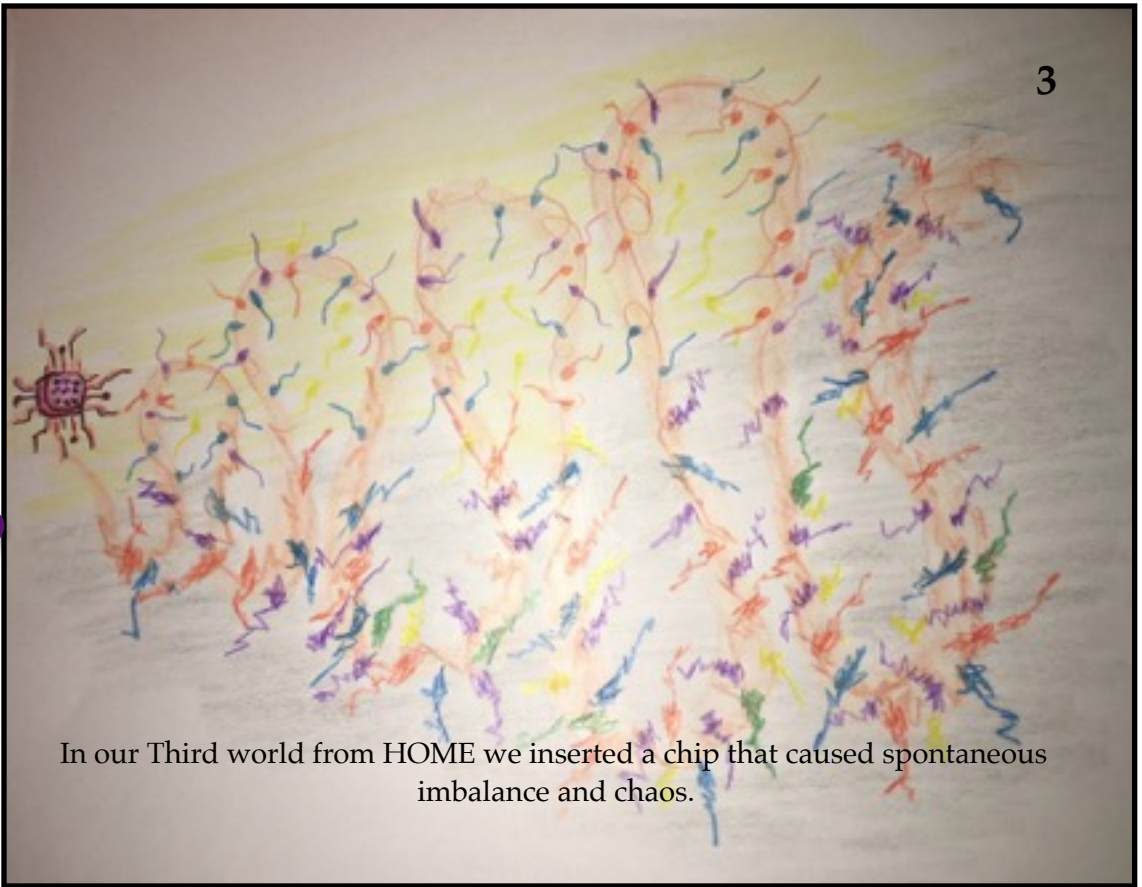

2

An emerging Collective extended from HOME in what became Our First World to experience Good in form.

Yes, it was just like Sally's move to New York.

Our new home was bright and happy. But we thought it would be fun to have big dips like on those big Roller Coasters rides you saw during vacation.

I remember. Those roller coasters looked very scary!

3

In our Third world from HOME we inserted a chip that caused spontaneous imbalance and chaos.

Well, we wanted to try and so some smart members of our family designed a program that would cause dips once in a while. Then they put the program into a "CHIP" like programs a computer. When the chip was plugged int it caused BIG dips.

"CHIP" designed to create chaos was inserted.

In our Third world from HOME we inserted a chip that caused spontaneous imbalance and chaos.

Well, at first the dips were scary, but very exciting. We would be very steady and 'boom' a BIG dip came and it felt like we dropped.

It was like when you are building with a tower with blocks and someone comes along to knock it down. After a while, the game feels felt icky endnote fun.

Sometimes, Tommy does that at preschool. I don't like it!

We were going to have the BIG dip game for just a short time. But, something went wrong with our plan.

What went wrong, Gramma?

We didn't get the chaos chip removed. And so we got sicker and sicker.

When things get very sick, others we call parasites, will attach and use them.

That happened to us and with so many parasites we could not stay healthy.

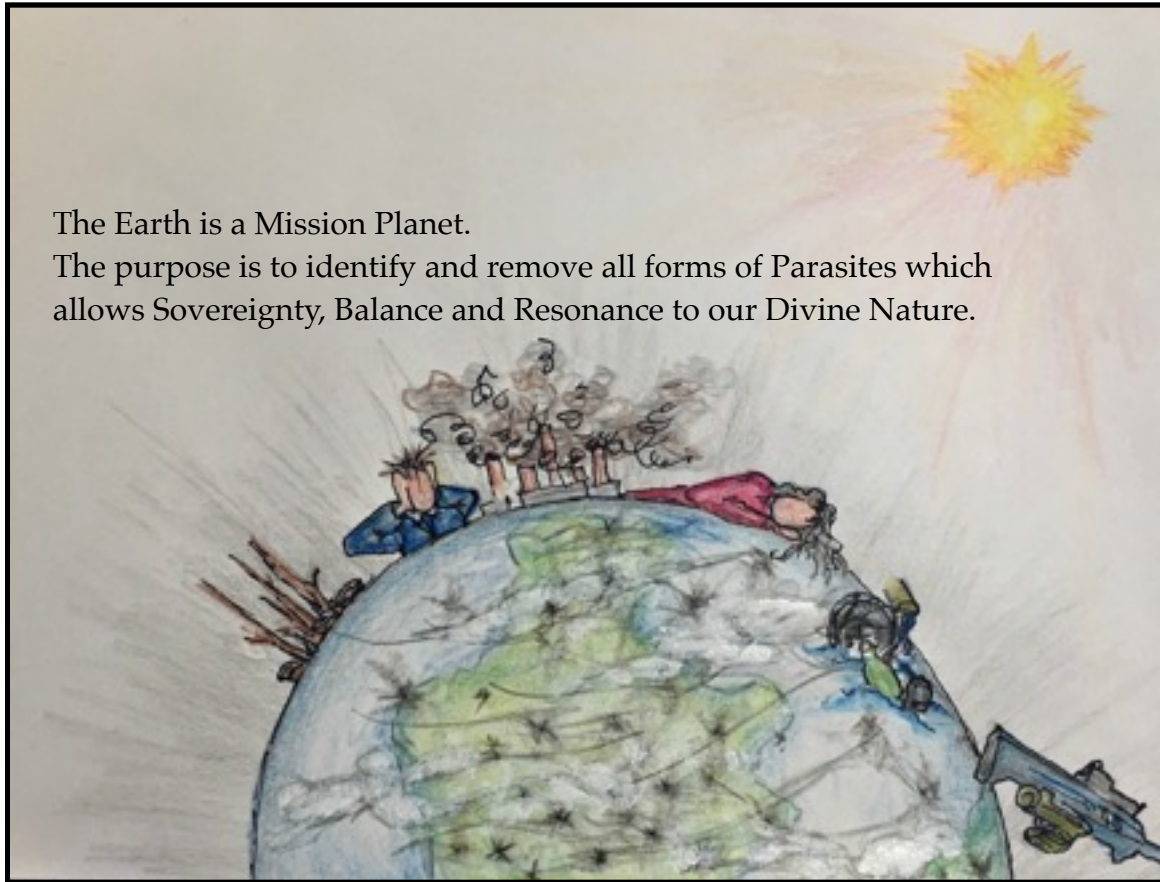

Like what happens when there are too many weeds in our garden!

Yes. But our family is very smart. We made a plan with great ways to get rid of the parasites - like we pull weeds.

The Earth is a Mission Planet.  
The purpose is to identify and remove all forms of Parasites which allows Sovereignty, Balance and Resonance to our Divine Nature.

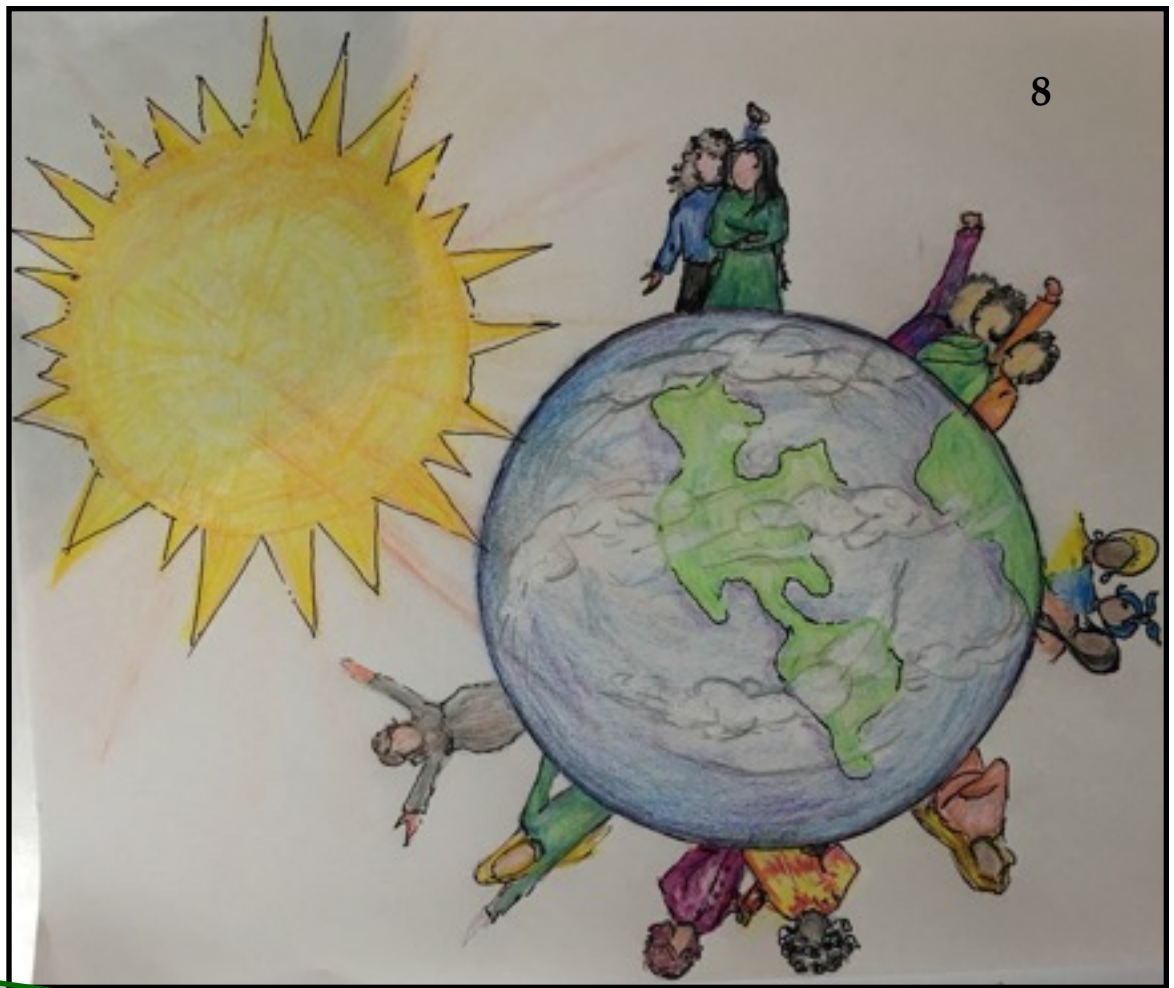

There were two jobs. The Male to keep the parasites busy. The Female to move the parasites back to their home.

For a long time, Humans forgot their jobs. Our world got pretty icky

And,  
You are so lucky, my  
Heart!

Why Gramms?

Because women are claiming a  
better world for their children.  
And that Dear Heart, includes  
you!

How, are they  
doing that?

Just as the plan  
intended. By  
standing up for all  
that is Good!

This model includes the "Fall" in energy frequencies which occurred with the inserted "chaos" chip and the invasions of Parasitic Outsiders.
